

Amoeba Sisters Video Recap: Multiple Alleles (ABO Blood Types) & Punnett Squares

For the following boxes, fill in the below information regarding each blood type.

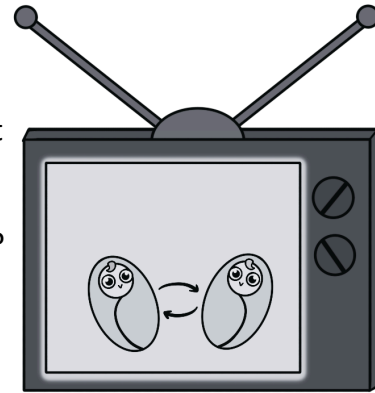

Blood Type A	Blood Type B
1. Phenotype: _____	4. Phenotype: _____
2. Possible Genotype(s): _____	5. Possible Genotype(s): _____
3. If the A type red blood cell below has any blood type antigens on its surface, please draw them below and label. If not, leave blank. 	6. If the B type red blood cell below has any blood type antigens on its surface, please draw them below and label. If not, leave blank. 
Blood Type AB	Blood Type O
7. Phenotype: _____	10. Phenotype: _____
8. Possible Genotype(s): _____	11. Possible Genotype(s): _____
9. If the AB type red blood cell below has any blood type antigens on its surface, please draw them below and label. If not, leave blank. 	12. If the O type red blood cell below has any blood type antigens on its surface, please draw them below and label. If not, leave blank.

Name Those Parents!

Hospitals typically have excellent measures in place to prevent mix-ups, but one baby was not so lucky. The hospital has narrowed down that baby Anthony is the biological child of one female and one male in the below list. Can you find them?

Possible Parents:

Natasha (female) Blood Type: B	Adrienne (female) Blood Type: AB	Rafael (male) Blood Type: O	Joshua (male) Blood Type: AB
-----------------------------------	-------------------------------------	--------------------------------	---------------------------------

Baby Anthony  Blood Type: O	13. Anthony's genotype: 	14. Female parent from above list (write name): 15. Female parent genotype: 	16. Male parent from above list (write name): 17. Male parent genotype:
---	----------------------------------	--	--

18. Draw the Punnett Square below that shows the cross between the parents you selected.

19. What is the percent chance in the Punnett square that you drew of having an O baby? _____

20. Can a baby that has blood type AB have one parent that is type O? Why or why not? If it is difficult to explain, try explaining with a Punnett Square diagram.
