

1. The boxes below represent the three **domains** that all organisms can be classified in: Bacteria, Archaea, and Eukarya. Which of these domains consist(s) of **prokaryotes**?

_____ Animal

_____ Bacterium (Note: Plural is Bacteria)

_____ Fungus (Note: Plural is Fungi)

_____ Plant

_____ Protist

4. Based on your knowledge about prokaryotic cells and eukaryotic cells, what are three structures the cells shown below would have **in common**?

5. Prokaryotes have **no** _____.

6. Eukaryotes **do** have (a) _____.

Eukaryotic Cell
rhymes with "do"

7. At the end of the video, there's a vocabulary challenge mentioned. Can you use the vocab to create your own sentences to compare and contrast prokaryotic cells with eukaryotic cells? If you need more space, you can attach an additional sheet of paper.

☐ Animal Cells	☐ DNA	☐ Nucleus
☐ Archaea	☐ Eukaryote/Eukaryotic	☐ Plant Cells
☐ Bacteria	☐ Fungus Cells	☐ Prokaryote/Prokaryotic
☐ Cell Membrane (Plasma Membrane)	☐ Genetic Material	☐ Protist Cells
☐ Cell Wall	☐ Membrane-bound Organelles	☐ Ribosomes
☐ Cytoplasm	☐ Multicellular	☐ Unicellular

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There is a vertical margin line on the left side, creating a narrow left margin. The paper appears to be from a notebook or a standard ruled document.
